# Message from the founder of Galaxlean

Dear customers

**Galaxlean** is a Polish company based in Kraków (Poland). Our goal is to help you to **reduce your costs** and **reach Excellence** with the Lean methodology and with a multi-disciplinary team.

Among our solutions to help you to reduce your wastes, we develop automatized tools to facilitate your decision's making.

Inside this catalogue, you might see several types of tools that Galaxlean might develop for you with **Microsoft Office** and based on your current tools and ERP system.

**All tools will be personalized following your own needs and particularities of your business.**

Sincerely

**Matthieu LEGER**

Lean consultant and founder of Galaxlean

# What is Continuous Improvement / Kaizen (改善)?

The first **ACT** would be to prepare reports and KPIs to clarify the current situation and to identify potential improvements.

Following the result obtained, a **PLAN** would be established with the priority in terms of improvements. Immediate actions would have to be **DONE** to protect the company and its customers. A **CHECK** or a control would be used to follow your actions deployed. Then, it would be to **ACT** in the long-term with specific and adapted tools to make improvements.

With all improvements, your goal is to **reduce your costs** and **reach Excellence**.
